

SAFE SHOPPING LIST FOR SEX TOYS

BODY-SAFE

Made from medical or food grade material that is safe for intimate contact.

NON-POROUS

Made from 100% silicone, glass, surgical steel, sealed ceramic, etc.

PASSES THE SMELL TEST

Unsafe sex toys frequently have an obvious chemical or plastic smell.

FORM AND FUNCTION

It is important that sex toys be used for their intended purposes. If you are not sure how a specific toy is designed to be used, ask a knowledgeable sex educator or sales associate.

Only purchase from trusted sex toy companies. Toys sold through Amazon or Wish may not meet high quality standards, so be sure you research the product thoroughly.
