

Spring Break SAFE TRAVELS

- Always carry identification and your insurance cards.
- Let someone who isn't with you know where you will be.
- Make sure your cell phone is fully charged and you have a charger with you.
- **If driving:**
 - Don't text while driving.
 - Make sure your car is in good condition before you leave.
 - Take turns driving. The person who sits shotgun should always stay awake.
- **If leaving the U.S.:**
 - Determine if you need any vaccinations. SIU has a travel clinic in the Student Health Center.
 - Learn what the 911 equivalent is for that country.
 - Keep copies of your passport, travel and financial documents separate from the originals.

Remember: Not all states have legalized cannabis and crossing state lines is still a felony.
