Always carry identification and your insurance cards.

Let someone who isn’t with you know where you will be.

Make sure your cell phone is fully charged and you have a charger with you.

**If driving:**
- Don’t text while driving.
- Make sure your car is in good condition before you leave.
- Take turns driving. The person who sits shotgun should always stay awake.

**If leaving the U.S.:**
- Determine if you need any vaccinations. SIU has a travel clinic in the Student Health Center.
- Learn what the 911 equivalent is for that country.
- Keep copies of your passport, travel and financial documents separate from the originals.

Remember: Not all states have legalized cannabis and crossing state lines is still a felony.
